

Uzbekistan solar system project price

Overview

Will Uzbekistan fund a 250-megawatt solar photovoltaic plant?

TASHKENT, May 21, 2024 — The World Bank Group, Abu Dhabi Future Energy Company PJSC (Masdar), and the Government of Uzbekistan have signed a financial package to fund a 250-megawatt (MW) solar photovoltaic plant with a 63-MW battery energy storage system (BESS).

How much does a power plant cost in Uzbekistan?

Abu Dhabi-based developer Masdar secured the project in the Bukhara region with a bid of \$0.03044/kWh. The 250 MW plant will be connected to a 62 MW storage facility. A consortium led by PowerChina secured the 150 MW project in Uzbekistan's Namangan region. The group offered a final price of \$0.0 4828/kWh.

Can Uzbekistan generate 25% of its electricity from renewables?

The country has set a target to generate 25% of its electricity from renewables by 2030. Several projects are underway, including the 1,500 MW Nur Navoi Solar Power Project and the 500 MW Jizzakh Wind Power Plant. Other renewable energy projects in Uzbekistan include the 220 MW Sherabad Solar Plant and the 457 MW Bash Solar Plant.

Why is Uzbekistan developing solar power?

The planned battery systems in Samarkand will store excess solar power and release it when demand is high. Uzbekistan continues to attract foreign investment in renewable energy. The country has been working with international banks and private companies to develop solar, wind, and hydroelectric projects.

Will EBRD grant \$145 million to Uzbekistan's solar power projects?

The European Bank for Reconstruction and Development (EBRD) is reviewing a proposal to provide \$145 million in loans for two large-scale solar power

projects in Uzbekistan. These projects, developed by ACWA Power, will include a total of 1,000 megawatts (MW) of solar energy capacity along with 1,000 megawatt-hours (MWh) of battery storage.

Will Uzbekistan deploy 900 MW of solar by 2021?

The procurement exercise is the first of two solar tenders for 900 MW that Uzbekistan 's Ministry of Energy announced in August 2021. The country aims to deploy 8 GW of solar by 2030. According to the International Renewable Energy Agency (IRENA), the country had only installed 104 MW of solar by the end of 2021.
