

What size photovoltaic panels are sufficient in Namibia

Overview

Can Namibia's solar PV capacity be expanded?

HopSol spoke with ECP about how Namibia's solar PV capacity can be expanded and further integrated with the national grid.

What is Namibia's First Solar power plant?

Namibia's first solar power plant was inaugurated in 2015 through the REFiT system. InnoSun Energy Holdings opened the Omburu Solar PV Park in May with an installed capacity of 4.5 MW, generating 13,500,000 kWh a year. The Park covers 40 hectares and contains more than 33,000 panels.

How many solar PV plants are under refit?

They have the capacity to feed 25.8 GWh into NamPower's grid each year. Other notable plants under the REFiT systems include Osona PV (5MW), Aloe PV (5MW), Alten PV (5MW), Ombepo Wind (5MW) and Metdecci PV (5MW). 13 out of the 14 REFiT agreements cover solar PV plants.

What are the key policies and initiatives guiding Namib-IA's renewables sector?

There have been five key policies and initiatives guiding the trajectory of Namib-ia's renewables sector. These are the White Paper on Energy Policy (1998), the Renewable Energy Feed-In Tariff (REFIT) Programme (2011), the National Renewable Energy Policy (2017) and the Namibia Green Hydrogen and Derivatives Strategy (2022).

How can Namibia develop a sustainable sector?

It sought to develop a sustainable sector through the state promotion of renewable energies. The white paper notably highlights hydropower, solar and wind energy as renewable sources that could enable Namibia's economic growth alongside environmental sustainability.

What is global photovoltaic power potential study?

It is a part of "Global Photovoltaic Power Potential" Study, which provides an aggregated and harmonized view on solar resource and PV power potential from the perspective of countries and regions.

What size photovoltaic panels are sufficient in Namibia

Namibia solar PV production could contribute N\$37bn to GDP

NamibiaâEUR(TM)s local solar photovoltaic (PV) cell production and module assembly could generate 22,000 jobs and contribute a N\$37-billion boost to the country's GDP by 2050,
