

Which platform in Japan has the most battery cabinets

Overview

Does Japan have a grid-scale battery market?

As Japan takes a leading role in Asia's grid-scale energy storage market, it's attracting international companies, including players like Tesla, which is known for its large-scale battery storage product, the Megapack. Japan NRG examines the latest trends in Japan's grid-scale battery market.

Why are Japanese companies investing in battery energy storage systems?

Sign up [here](#). That is creating surging interest in battery energy storage systems (BESS) to smooth mismatches in supply and demand. Since December 2023, companies have announced investments of at least \$2.6 billion in Japanese battery storage projects, according to calculations by Reuters.

How many battery storage projects will Stonepeak and CHC develop in Japan?

Stonepeak and CHC's energy storage platform will develop five new battery storage projects in Japan. These projects have a combined capacity of 348 megawatts (MW). The deals were finalized under Japan's Long-term Decarbonization Auction. These projects were selected as part of Japan's latest long-term auction focused on low-carbon energy.

Why is battery storage important in Japan?

Once operational, the battery storage systems will help balance supply and demand on the national power grid. Battery storage is viewed as an important part of Japan's decarbonization plans. Storage systems like BESS help keep power systems stable, especially when more electricity comes from solar and wind sources.

How big is Japan's battery storage capacity?

Rystad forecasts Japan's battery storage capacity could reach about 4 GW based on projects under construction, planned and awarded, which would

require \$6 billion in investment.

Why are Japan and Kyushu so attractive for battery projects?

"Tohoku and Kyushu regions have a lot of renewables, which makes these regions very attractive for battery projects, and that's why there is a lot of contracted and considered projects there already," said Uranulzii Batbayar, a Tokyo-based analyst with Rystad Energy.
