

# Zimbabwe s latest photovoltaic energy storage policy

#### **Overview**

What is "renewable energy" in Zimbabwe?

The NREP defines "renewable energy" as referring to "small hydro (equal to or less than 30MW), solar, wind, geothermal, biofuels and biomass and other such clean energy sources approved by the Ministry responsible for Energy in Zimbabwe".

Who is responsible for the energy sector in Zimbabwe?

The MOEPD has overall responsibility for the energy sector in Zimbabwe. It is responsible for policy formulation and implementation, an oversight role over the government-owned utilities (ZETDC and ZPC), ZRA jointly with Zambia and the activities of ZERA. It is also responsible for regional and international cooperation on renewable energy issues.

Who owns the electricity in Zimbabwe?

ZPC owns the electricity generation assets and is responsible for electricity generation. It also owns the Kariba Hydro power stations, which presently generate approximately 50% of the electricity generated in Zimbabwe. ZETDC is the utility that owns the transmission and distribution infrastructure in Zimbabwe.
